

Our Third Successful Year

We desire at this time as we near the close of the third year since the organization of the

First Trust and Savings Bank OF ROCK ISLAND

To express to our friends in Rock Island and adjacent territory our sincere appreciation for the continued and increasing business entrusted to our care, which has made possible the substantial growth in the business of this bank during the past twelve months. We trust that by strict adherence to the policy adopted by our institution at the time of its organization in 1920 to put forth every legitimate effort consistent with sound banking principles to serve the people and business of this city and adjacent banking territory in a manner which would tend to up-build our community, making it a more prosperous and suitable locality in which to live and transact business, and that with the assistance and cooperation of those business institutions and citizens of Rock Island whose policies and aims are for similar accomplishments, we will before the close of 1923 cause to be recorded in the pages of the review of—

ROCK ISLAND'S PROGRESS FOR 1923

those facts and figures which continue to place our city and community in the lead as a commercial and civic center, establishing a standard to be envied by those who strive to follow.

No community can be larger than the people who make up that particular community. No community can be better than its people. Those who live in a community and by business methods or otherwise fail to keep pace with the spirit of the times or the needs of the community, thereby throwing stones in the path of progress and while residents are not citizens, are sooner or later lost.

This is the time for 100% efficiency and progressiveness. We are for a bigger and better Rock Island and we are willing to do our share—and more.

*If You Are With Us We Wish You
A Happy and Prosperous New Year*
